

Instructions

1. Drill (2) holes into the doggydocks® mounting board, avoiding the hinge on the backside.
2. Place doggydocks™ onto the mounting surface making sure it is lined up with the edge.
3. Mark the platform below through the holes just drilled into the doggydocks™.
4. Drill 1/4" holes in mounting surface.
5. Screw threaded insert into dock or platform flush or slightly below the surface.
6. Place washer and insert thumbscrew through doggydocks™ into mounting surface.
7. Tighten thumbscrew so that the doggydocks® is secure.
